

Donate

The UNIF USA Foundation is an official 501c(3) non-profit organization based in the State of Florida.

Donations can be made online through PayPal (to the right), or by check made out to "UNIF USA, Inc." and sent to:

UNIF USA Foundation
P.O. Box 480300
Ft. Lauderdale, FL 33348

Donations to UNIF USA are used to support the mission of the University of Fondwa, and can be directed towards many of the university's needs:

Student scholarships

It costs \$4,500 per year to offer students from rural villages tuition, room, and board in Fondwa. Since UNIF is Haiti's only rural university, this is our students' only chance at receiving an education that is adequate for the needs of their home communities. Donors can offer full or partial scholarships, and are encouraged to correspond with students.

Professor Salaries

UNIF proudly employs a majority of Haitian professors, who teach in each of the three faculties (Agronomy, Veterinary Medicine, and Management). \$500 per month covers the salary for a highly qualified Haitian professional instructor.

Learning Resources

Textbooks and other formal learning materials are sorely lacking in rural Haiti. UNIF students all speak Kreyol, French, Spanish, and English, which greatly increases the variety of textbooks that UNIF can accept as donations. College-level texts in the basic sciences, mathematics, management, and foreign languages (such as English as a Second Language) are particularly useful. The internet is also an extraordinary tool for our students to perform research and have contact with colleagues and professionals in other parts of the world. \$100 per month covers the cost of UNIF's internet subscription.

There are many more ways to help the growth of UNIF, and every donation counts. As the Kreyol proverb goes, "Bit by bit the bird builds its nest." To find out how you can participate, please contact us at info@unifusa.org. To make your secure donation today, simply use the donation link on the right hand side of this page.

Thank you for your interest in UNIF!
